Education

- **PES University** — Bengaluru
  Bachelor of Technology in Computer Science and Engineering; ***Curr. CGPA: 9.48/10.00*** — *Aug. 2018 – Present*
- **Vidya Mandir Ind. PU College** — Bengaluru
  Pre-University Education; ***Per.: 93.7%*** — *July 2016 – May 2018*
- **Sindhi High School** — Bengaluru
  Class 1-10 in CBSE; ***CGPA: 10.0/10.0*** — *June 2006 – March 2016*

Skills

- **Programming Languages**: Python, C, C++, Java, Shell-Scripting, SQL, JavaScript, HTML-CSS
- **Technologies**: SpringMVC, AngularJS, Django, Docker, Hadoop, PySpark, AWS-Hosting, Git, Java-Collections, STL(C++)

Experience

- **Morgan Stanley** — Bengaluru
  Summer Technology Analyst — *May 2021 - July 2021*
  - Developed a Dynamic Real-Time Analytical tool that provides reporting and analytical capabilities to its end users based on simple user search.
  - The search is achieved by constructing dynamic database queries, service calls to various endpoints, and by parsing metadata files and the consolidated data is represented in an interactive dashboard.
  - *Technologies - SpringMVC (JAVA), AngularJS, UI Bootstrap, Tomcat Server Deployment.*
- **Center for Cloud Computing and Big Data** — PES University, Bengaluru
  Research Intern — *June 2020 - July 2020*
  - Worked with a team to develop a Cloud Based Single Page Web Application for the Department of Computer Science, PES University for evaluating final year projects.
  - The Web-Application was Dockerized into containers and deployed in an Amazon EC2 Instance.
  - *Technologies - DjangoREST, JWT, HTML-CSS, JavaScript, Docker.*
  - **Presented at IEEE-CCEM** *(IEEE International Conference on Cloud Computing in Emerging Markets).*

Projects

- **Curtailing Tail Latency (in progress)**: Identify causes of Tail Latency of Applications running in Micro-service Architecture and propose methods to curtail it. *Death Star Bench, Docker, TShark Packet Capture*
- **YACS (Yet Another Centralised Scheduler)**: Simulated a scheduling framework to manage and allocate the resources of the cluster to the different jobs in the workload *Python,Literature Survey*
- **Greenest Parts of Bengaluru**: Hadoop Map Combine Reduce was used to determine the greenest parts of Bengaluru. The process was run on a Pseudo-Distributed Apache-Hadoop cluster. *Python, Hadoop-MRJob, OpenCV*
- **Time-Series analysis for Stock**: Developing a stock prediction tool by analysing Time-Series data using ARIMA modelling and LSTM. *Data Analytics, Python*

Achievements

- **Prof. C N R Rao Merit Scholarship**: Semester 1 and 2, *Offered to the top 20% students of PES University.*
- **Prof. M R Doreswamy Merit Scholarship**: Semester 3, 4 and 5, *Offered to the top 20% students of PES University.*
- **Certificate of Merit from Central Board of Secondary Education**: Securing A1 in all the subjects of class 10.

Participation

- **e-Yantra - 2018**: Worked with a team in the e-Yantra Robotics Competition, a project initiative by IIT Bombay and qualified for the pre-finals.
- **Google Hash Code**: Participated in the years 2019, 2020 and 2021.
- **International Olympiads**: Participated in several Mathematics and Science Olympiads and secured 1st place at school level in the years 2012, 2013 and 2015.

Extra Curriculum

- **Trinity College of London**: Graded Examination in Piano **Grade 1-5**.
- **Trinity College of London**: Graded Examination in Music Theory **Grade 1-6**.
- **Carnatic Music (Vocal) Junior Grade**: Qualified First Class.
- **College Fest Aatmatrisha 2019**: Performed as a **pianist** in the college band.
- **Inter-Department Football Tournament - 2020**: Participated and qualified for the finals.
